Welcome to TAMARKIN RARE CAMERA AUCTION'S 34th Rare Camera Auction on Saturday, November 14, 2015 at our office at 270 Amity Road, Suite 125, Woodbridge, Connecticut.

Please read the General Instructions and the "Terms and Conditions of Sale":

GENERAL INSTRUCTIONS:

BUYER'S PREMIUM

There is a Buyer's Premium of 19.5% for floor, telephone, email, and fax bidders.

The Buyer's Premium for On-Line Internet bidders is 22%.

CONDITION

All items are offered "as is." There is no return privilege, and all sales are final.

We have sought to express carefully in our catalogue a useful, general guide to the condition of each Lot. We have also attempted to describe any damage or restoration, but our descriptions cannot be accepted as absolutely definitive and complete. The absence of such a reference does not imply that a Lot is free from defects nor does any reference to particular defects imply the absence of others. Such information is given for guidance only and the condition of any Lot, and the nature and extent of any damage or restoration, should be confirmed by examination prior to the sale.

In terms of function, common sense should prevail. While we have tried to call attention to conspicuous mechanical or optical problems, one should assume that many of the Lots have seen little recent use and, therefore, have not recently been cleaned, lubricated, or adjusted unless otherwise noted. This means that many Lots, especially older cameras, might have shutter speeds and/or light meters that might need adjusting, and that lenses and other optical items might require lubrication and/or cleaning.

GUIDE TO RATINGS OF CONDITION

Mint	Like new. No signs of use or wear.
Near Mint	Only one or two insignificant signs of use.
Excellent ++	Excellent. Only very slight signs of use.
Excellent +	Better than average. Used, but not abused.
Excellent	Average condition, signs of normal use.
Very Good	Well used but working.
Good	Heavily used
Poor	Bad condition. Probably only useful for parts.

ESTIMATES & RESERVES

The estimated prices in the catalogue descriptions are the approximate prices expected to be realized, excluding Buyer's Premium. They are prepared well in advance of the auction sale and are subject to revision. Furthermore, they are not definitive and meant only to represent general guidelines. Every item in the auction has a private "reserve" price.

INTERNET ON-LINE BIDDING

You will be able to bid, if you choose, in "real time" during the auction. Internet bidders pay a 22% Buyer's Premium.

BIDDING BY LETTER, FAX, OR E-MAIL

We are pleased to make commission bids on your behalf. All e-mail/mail/fax bids must be received by 5:00 PM EST on Friday, November 13, 2015.

Please state clearly your name, address, telephone numbers, fax numbers, date, e-mail address, credit card number (with expiration date and security code), and signature. Unless previous arrangements have been made, bids that are missing full credit card information will not be entered. Catalogues will include a bid sheet and a facsimile can be downloaded from our website.

Please list the lot number or numbers for which you would like to bid as well as your bid. Bidders will receive an invoice after the auction if their bids are successful.

Please note that all bids will be executed at the lowest possible price consistent with the Terms and Conditions of the auction. Tamarkin Rare Camera Auctions will treat mail/fax/e-mail bids as the maximum price, which the Buyer is willing to pay and will bid only enough to exceed the reserve price, or the next highest bid, at the normal auction interval.

VIEWING

Please note the viewing schedule: All Auction Lots are available for inspection prior to the sale, from November 2, 2015 until November 10, 2015 at 300 West Superior Street, Suite 202 in downtown Chicago, Illinois, by appointment. Our staff will attempt to answer questions and give advice, but the final decision to bid, and the amount to bid, is at your discretion and liability.

LOCAL TAXES

A 9.25% sales tax is due on all deliveries made in Illinois, and 6.35% on items delivered in Connecticut. However, all lots that are delivered outside Illinois and Connecticut are not charged any local or other U.S.A. taxes.

SHIPPING

All lots are available to the buyer at the end of the auction. Tamarkin Rare Camera Auctions undertakes the shipment of auction purchases only as a courtesy to buyers. The Buyer pays all freight and insurance costs and plus a modest additional fee for packaging and handling. Insured USA shipments are made by UPS and the US Post Office. Foreign shipments are made by insured USPS International Priority Airmail, or, by arrangement, by courier services such as UPS, Fedex, and DHL. Insurance is available for foreign shipments up to \$5,000 by USPS mail and up to \$75,000 by UPS, FedEx, or DHL. Note that some countries have limits of insurance and therefore all liability for shipments above a country's limit will lie with the Buyer. All risk of loss, theft, and damage passes to the Buyer upon dispatch by the freight company or postal service.

PAYMENT

Payment must be made within five (5) days after the close of the sale. Acceptable payment may be cash, bank check, bank wire transfer, or credit card. (Acceptable credit cards are VISA or MASTERCARD or equivalent.) We are unable to accept, nor will we accept, payments by PayPal, Discover Card or American Express for auction purchases. All checks and other payments must clear before delivery of purchases unless prior arrangements have been made. Bank wire transfer details will accompany the auction invoices. He photographed both the talent and the attendants of these music fests, encapsulating the era and its emotion through candid and unposed images. Among other accomplishments Mr. Tomassi co-directed a survey of regional photography called *The Southern Ethic*, a traveling exhibit and book. He was awarded an National Endowment for the Arts Fellowship in 1977. This Niko-Mar IV underwater housing is one of only 50 pieces ever made by dive-photography innovators Al Giddings and Mike Felgen of San Francisco. Made in 1979, the housings were delivered to National Geographic along with the Nikon FEA camera, designed for this sort of application. Between 50 and 100 Nikon FEA camera bodies were made and none immediately made it into public hands. The "A" stands for "Action" – the camera is otherwise a Nikon FE model. Action finders were originally developed for pilots who needed the full view of the focusing screen but from a distance since they could not place their eye to the viewfinder while flying.

The Niko-Mar IV housing allows a diver to choose shutter speed, aperture, focus and shutter release. Additionally, it was equipped with handles, a flash connection, a strobe arm mounting plate, and a flat base plate. The Nikon FEA camera with motor drive was mounted inside the housing, and interchangeable fittings accommodated a variety of lenses. An innovation in both diving and photography, the Niko-Mar IV and Nikon FEA made photographic history and are rarely seen by the general public and until now, never offered for sale at Auction. This set is one of the initial 25 Niko-Mar IV and Nikon FEA sets commissioned by the National Geographic Society in 1978-1979 and delivered in 1980. FEA camera systems were used by such eminent underwater photographers as David Doubilet, Chuck and Flip Nicklin, Bill Curtsinger, and, or course, Al Giddings himself.

This Niko-Mar IV set includes a Nikon FEA camera Nr. 5400005 (Excellent ++ condition) with original instructions, a Nikon MD-12 Motor Drive Nr. 1526780 (Very Good condition), 18mm Nikkor f3,5 lens Nr. 184331 complete with lens shade, caps and case (Good condition), a Sekonic Marine-Meter Model L-164B Nr. 933391 with housing bracket, instruction booklet and case (Excellent ++ condition), and the complete Niko-Mar IV Underwater Housing unit (Excellent ++ condition).

A very rare and important part of 20th Century photographic history.

189. Nikon 2000mm Reflex-Nikkor f11 Mirror lens Nr. 200323, in Nikon F mount, complete with leather lens cap in its original case, and with AY-1 tripod mounting unit in fitted wooden case.

This third and final version of the lens was made after 1975 and has the Nikon "C" coating, which earlier models lacked. Fewer than 300 of these massive catadioptric lenses were produced beginning in 1970, and were available only by special order. This 40x-magnification lens is made up of five elements in five groups, and has a fixed aperture of f11 and built-in filters: ultraviolet (L37C), medium yellow (Y48), orange (O56) and red (R60). The focusing knob on the back of the lens requires three full revolutions to focus from infinity down to the closest distance of around 59 feet.

Checking in at more than 50 pounds, this is Nikon's largest and longest lens. And, likely, the rarest Nikon production lens, too.

A very rare and complete lens set in stunning condition.

Condition: Excellent ++

Estimate: \$40,000 - \$80,000

190. The Hegelein Watch Camera, Nr. 381891 (81891).

Also known as "Anthony's Watch Camera," this is the fourth known example in the world. Patented in 1894, New Yorker John C. Hegelein designed this subminiature pocket watch camera to take removable wooden plate holders for single-exposure film. The watch casing measures 2 ¼-inches in diameter, making it slightly larger than earlier examples. The watch opens on either end to accept a film plate and to extend the seven-section telescoping lens. When the watch "winding mechanism" is pressed, the front of the case opens and the user can extend the telescoping lens by hand. The camera made circular images, one at a time. Around the turn of the 20th century, the camera sold for \$5.

The front ring engraving around the meniscus lens reads, "THE WATCH CAMERA PAT'D AUG. 7. 1884 JOHN C. HEGELEIN. N.Y." Inside the case is stamped on both covers "381891" which suggests that this example was either a later-manufactured camera than the three previously known examples – or it was a pre-production example. A fascinating and ultra-rare piece of photographic – and American – history.

Condition: Good
 Estimate: \$35,000-\$70,000
